Characteristics and functionality

Main characteristics

- Set consisting of weighing platform, column and weight indicator.
- 1 load cell.
- Valid for legal metrology (see section on equipment metrological verification).

Functions

- Weight.
- Checkweighing (minimum-maximum).
- Accumulation.
- Zero.
- Tare.
- Piece counting (only VC-50 M).

Construction

- Platform:
 - › Steel structure (aluminium for model of 420 x 520 mm), aluminum load cell and stainless steel plate.
 - Height adjustable feet.
 - 2 indicator versions available:
 - › VC-50 M.
 - › VC-80 I.
- See section on weight indicators and repeaters.
